

## DISCLAIMER

The present version of the national guideline has been accepted by the President of the CPVO for its use in technical examinations carried out on behalf of the CPVO or for the take-over of reports serving as a basis for a CPVO decision.

**Ajuga**  
**Simplified standard protocol: SSP/AJG/2**

Examination office:	Naktuinbouw	
Reference of the protocol:	SSP/AJG/2	
Date of preparation of the protocol:	01/03/2024	
Date of entry into force of the protocol:	01/04/2023	
Botanical taxon:	Ajuga L.	
Common Name (when known):	Ajuga	
Way of propagation of the plants to be examined:	Self or cross pollinated seed propagated <input type="checkbox"/> Vegetatively propagated <input checked="" type="checkbox"/>	
Number of growing cycles:	1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> Other <input type="checkbox"/> specify <a href="#">Click or tap here to enter text.</a>	
List of grouping characteristics:	Yes <input type="checkbox"/> if yes put as annex No <input checked="" type="checkbox"/>	
Minimum number of plants in trial:	Vegetative:20	-
Minimum number of plants observed by measuring or counting:	Vegetative:1	-
Give description of when observations should take place:	All observation should take place: at full flowering	
<p>Uniformity:</p> <ul style="list-style-type: none"> <li>- For the assessment of uniformity of vegetatively propagated, self-pollinated seed propagated varieties or F1-hybrids, a population standard of 1% and an acceptance probability of at least 95% should be applied. In the case of a sample size of 20 plants, 1 off-types are allowed.</li> <li>- For the assessment of uniformity for cross-pollinated varieties, the recommendations for cross-pollinated varieties in the General introduction of UPOV should be applied. The variability within the variety should not exceed the variability of comparable varieties already known.</li> </ul>		

Table of characteristics:	Present <input checked="" type="checkbox"/> Not available <input type="checkbox"/>
Literature: (when present, please annex to this document)	Present <input checked="" type="checkbox"/> Absent <input type="checkbox"/>

## TABLE OF CHARACTERISTICS

N°	Characteristics
1.	Plant: growth habit
2.	Plant: height
3.	Plant: width
4.	Stem: internodes length
5.	Stem: color
6.	Petiole: length
7.	Petiole: color
8.	Petiole: pubescence
9.	Leaf blade: length
10.	Leaf blade: width
11.	Leaf blade: shape
12.	Leaf blade: main color
13.	Leaf blade: secondary color
14.	Leaf blade: distribution of secondary color
15.	Leaf blade: tertiary color
16.	Leaf blade: distribution of tertiary color
17.	Leaf blade: shape of margin
18.	Leaf blade: shape of apex
19.	Inflorescence: length
20.	Inflorescence: width
21.	Inflorescence: density
22.	Bract: main color RHS Colour Chart (indicate reference number)
23.	Bract: secondary color RHS Colour Chart (indicate reference number)
24.	Bract: distribution of secondary color
25.	Bract: tertiary color RHS Colour Chart (indicate reference number)
26.	Bract: distribution of tertiary color
27.	Calyx: length

<b>N°</b>	<b>Characteristics</b>
<b>28.</b>	Calyx: color
<b>29.</b>	Calyx: intensity of anthocyanin coloration
<b>30.</b>	Flower: length
<b>31.</b>	Flower: width
<b>32.</b>	Corolla tube: length
<b>33.</b>	Corolla tube: width
<b>34.</b>	Corolla lobe: color RHS Colour Chart (indicate reference number)
